

miscellaneous

Product: A program that handles the layout of zines

Madison Byrd

features

Provide both TUI and GUI versions. We're on Linux, after all!

Madison Byrd

development

Leadership structure: mostly me but anyone who might like to contribute

Madison Byrd

environment

Supports Linux first and foremost with a port for Windows

Madison Byrd

programming

Programmed in C++

Madison Byrd

Hurdles: unfamiliarity with existing tools

Madison Byrd

Give the program a cool and wacky UI

Madison Byrd

Licensing: AGPL or Peer Production License

Madison Byrd

Uses qt6 for GUI

Madison Byrd

use CMake for compilation

Madison Byrd

Pricing: None! That would be against the spirit of zines.

Madison Byrd

automatically print with the correct settings for the layouts

Madison Byrd

Source control: Git

Madison Byrd

use CUPS for printing

Madison Byrd

Regulatory issues: none

Madison Byrd

ability to import assets from outside the program for use in zines

Madison Byrd

Package as an AppImage

Madison Byrd

Enable exporting as PDF

Madison Byrd

Advertisement and marketing: I could make a zine about it :)

Madison Byrd

Get feedback through GitHub issues and emails
